FocalPoint® Graphic Workstation

Accelerate Emergency Responses

**Time is everything
in an emergency.**

**Give them the
power to act fast.**

Informed Fire Safety

Whether a customer manages a multi-building college campus, a high-rise office tower, a 500-bed hospital, or a global chemical firm with plants and offices around the world, Gamewell-FCI's FocalPoint® Graphic Workstation provides real-time, accurate fire protection information about any facility – with the touch of a button.

FocalPoint simplifies and centralizes fire panel monitoring and control, providing quick, reliable intelligence for sound life-safety decision-making. This means facility managers can react quickly to ensure that emergencies are rapidly contained and damage is minimized.

*“access to critical information
wherever, whenever”*

Using the Microsoft Windows® operating system, all information needed to assess an emergency situation is presented in an easy-to-use, intuitive interface. The result? A superior tool that helps first responders formulate their plan of attack – and execute it successfully. FocalPoint Graphic Workstation gives your customers confidence to assess complex emergency situations quickly – saving property and saving lives.

A Clear View from the Top

- Visual information displayed on a graphic workstation
- Touch screen monitor
- Cascading screens provide full view and drill down display of event locations
- Automatic screen navigation locates and zooms to the exact location of the event
- Easily prioritize events as user is automatically taken to the location of highest concern
- Information labels identify hazardous material locations, handicapped accessible areas, and more using fully linked multimedia

Monitor from Across the Street or Across the Globe

With FocalPoint, users can see how events progress and view locations with emergency equipment, hazardous materials, etc. Using TCP/IP connectivity, FocalPoint links sites across the globe, supporting an unlimited number of users without distance limitations so your customers are always in the know.

The ability to evaluate an alarm or trouble condition rapidly is paramount to maintaining steady operations. FocalPoint helps even the smallest medical facility keep critical service uninterrupted. The power of FocalPoint comes from its ability to oversee multiple buildings spread out over miles of campus.

Remote Monitoring for Ultimate Control

- Link multimedia (text, audio, video, and graphic files) to any device for anytime, anywhere visibility
- Important fire alarm functions: Acknowledge, Reset, Silence, Enable/Disable
- Take the guesswork out of maintenance and enable personnel to take corrective action to minimize false alarms
- Create custom icons for quick and easy access to control the functions of the entire alarm system
- Security profiles allow customers to control the level of access given to each system user
- Compatible with E3 Series® and S3 Series™ fire alarm control panels

THE CUSTOMER'S CHOICE

With over 150 years of experience in fire alarm technology and a commitment to engineering the most technologically advanced fire safety systems available, decision makers worldwide select Gamewell-FCI products to safeguard their buildings, people, and property.

National Guard Camp Joe T. Robinson
Northrop Grumman Corporation
Rose State College
Texas Tech University
ThyssenKrupp AG
Yahoo! Inc.
Yale University

TRUSTED FOR LIFE

From building and installing the first municipal electric fire alarm system using telegraph wires in 1852, to developing self-programming panels, sophisticated digital voice evacuation systems, and touchscreen interfaces, Gamewell-FCI's history is rich in industry firsts and technological advances.

Products are available through an authorized network of independent Engineered System Distributors (ESDs). Partnerships with a wide variety of distribution outlets allow us to provide the most cost-effective, non-proprietary fire and life safety products available today.
